### DETAILED ACTION

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this

Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Montgomery, Sr. (U.S. 6,718,714 B1) in view of Fitzgerald (U.S. 3,319,392).

Montgomery, Sr. teaches warning tactile floor tile with bevels and screw holes for easy installation (abstract, Figure 3, Figure 16). Fitzgerald teaches joining floor tile with connectors to form a sheet that can be rolled for easy transportation and installation of the tiles (Figure 9). The instant invention claims the use of a floor mat that can be rolled with tactile projections, screw holes and beveled edges. It would have been obvious to one of ordinary skill in the art to have connected the tiles of Montgomery, Sr. in order for them

to be transported and installed in roll form because of the teachings of Fitzgerald.

3. Applicant has not complied with one or more conditions for receiving the benefit of an earlier filing date under 35 U.S.C. 119(e) as follows:

An application in which the benefits of an earlier application are desired must contain a specific reference to the prior application(s) in the first sentence of the specification or in an application data sheet (37 CFR 1.78(a)(2) and (a)(5)). The specific reference to any prior nonprovisional application must include the relationship (i.e., continuation, divisional, or continuation-in-part) between the applications except when the reference is to a prior application of a CPA assigned the same application number.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to William P. Watkins III whose telephone number is 571-272-1503. The examiner works an increased flex time schedule, but can normally be reached Monday through Friday, 11:30 A.M. through 8:00 P.M. Eastern Time.
